An initiative by Cal India Tours and Travels Team

The problem with plastic is that **most of it isn't biodegradable**. Each year, 400 million tons of plastic is produced and 40% of that is single-use - plastic we'll only use once before it's binned.

*It is much lighter than a mobile phone.
Carry a bag from home for shopping*

Don't be drastic, Say 'NO' to Plastic Bag.

If you can't 'Reuse' it! | 'Refuse' it!
